Welcome to Offices To Go™

Offices To Go is proud to offer exceptional comfort and style while maintaining a value conscious approach to seating. Choose from MULTI-FUNCTION, TASK, MESH, MANAGERIAL, LEATHER (Luxhide) and STACK/GUEST seating to complete your office environment.

All Offices To Go chairs are manufactured exclusively in certified factories and have been tested to ensure compliance with all applicable industry standards. You can sit more comfortably knowing you have selected a quality product from Offices To Go!

Several Offices To Go chairs have scuff resistant arched molded bases with matching casters, impact resistant outer back shells, adjustable height arms and headrests.

All Offices To Go seating models come with easy to follow assembly instructions with detailed photographs. Product assembly is designed to be quick and simple.

Enjoy your new Offices To Go seating!

The Color Program

All Offices To Go fabric chairs are stocked in QL10 Black patterned upholstery fabric. Most fabric chairs marked with a **T** icon also available in other fabrics and colors (see page 54-55 for details). Offices To Go Luxhide* chairs have soft Black (BL20) Luxhide* seating surfaces made from bonded leather with matching mock leather trim. All Luxhide* chairs marked with a **T** icon are also available in other Luxhide* colors at a nominal upcharge. A select number of chairs are upholstered in genuine leather. Mesh back chairs are featured and available exclusively in black mesh.

WIDTH ADJUSTABLE ARMS

ARM ROTATION

Offices To Go model OTG11668B provides a high degree of comfort and adjustability. The seat is manufactured with resilient high density foam padding that allows the user to remain comfortable throughout the work day. The mesh back allows air to freely move through it enhancing the comfort. There is an adjustable lumbar support that moves in and out as well as up and down. The chair adjusts for different size users through the pneumatic seat height adjustment and the seat slider which allows the seat to be moved forward or rearward to achieve the perfect amount of support for shorter or taller people.

The chair arms are fully adjustable. A button on the side of each arm allows the arms to move up and down. The arm caps rotate inward and can slide forward as well, helping to provide great support when keyboarding. The arms are even width adjustable, meaning that with the OTG11668B a user can position the arms and armrests exactly where they will provide the greatest comfort and support. All of these features allow the chair to be truly customized to the size and preferences of the user.

All OTG models, including this one, are tested in advance of coming to market, and also tested during and after production to make sure that they meet applicable industry standards, such as ANSI-BIFMA. We want to make sure the purchaser is happy with OTG seating now and in the future. As a result, OTG chairs are great investments both now and over their lifetime.

A

The Built-in Lumbar support can be adjusted up and down. Its sliding action allows the user to position the lumbar support at the most comfortable and supportive position. Simply grip the adjustment tabs and move the support to the optimal location.

B

The Built-in Lumbar support is also adjustable in and out. This feature allows the user to "dial in" the exact amount of support desired. The amount of support is easy to adjust and change. Simply grip the control arms and slide them to your desired position.

Width Adjustable Arms can be slid in or out by 1.5" allowing the armrests to be positioned exactly where the user wants them. Simply move the lever forward to release movement of the sliding arm.

Height Adjustable Arms allow the user to position the arm caps exactly where they need to be. The arm height is easily changed through the use of a button under the outside edge of the arm cap.

Depth Adjustable Arms slide forward and rearward allowing the arm caps to be optimally located. They are constructed from a soft polyurethane material which provides comfort AND durability.

Pivot Adjustable Arms swivel to the left and right to face toward a keyboard or mouse. Rotating the arm caps so they aim where needed may help to reduce Repetitive Strain Injuries (RSI's).

CARE & CLEANING

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface. For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent.

Luxhide*: For regular cleaning, simply use a soft, damp cloth, taking care not to soak the Luxhide. For more thorough treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Always test fabric first in an unseen area before using any cleaning method.

Seating textiles shown are for reference only. While color consistency and quality are controlled to the highest standards, color may vary from samples shown.

For actual finish samples, please contact your local sales representative.

Ergonomic Features

Maximizing your Ergonomic Seating:

Every Offices To Go chair is built with features that are ergonomically designed to promote good posture and provide maximum comfort. While fully supporting your body, these features should also allow you to adjust your chair to fit you.

Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it. Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points. An ergonomically designed chair should allow changing postures easily.

As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.

Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed chairs.

Seating Warranty

Offices To Go warrants its products to be free from defects in material and workmanship subject to the limitations below.

This warranty is made by Offices to Go only to original end user customers acquiring the product directly from authorized Offices To Go dealers. The customer's sole remedy under this warranty is limited to repair or replacement at Offices To Go's option. Consent from Offices To Go must be obtained before any warranty work is performed. This warranty shall not apply to any products which must be replaced due to normal wear and tear, negligence, abuse or "accident", shipping damage or product use other than in accordance with written instructions or warnings. It will also not apply when product has been modified or altered, repaired or refurbished by someone other than Offices To Go. This warranty does not cover the cost of transportation or labor. Offices To Go can make no warranty that any of its products are suitable for any particular purpose and can make no other warranties, expressed or implied. In no event shall Offices To Go be liable in either tort or contract for any loss or direct, special, incidental, consequential or exemplary damages.

This warranty is not valid if the products are used for rental purposes.

Under this warranty, claims must be made within the following periods from the original date of purchase: (a) non-moving parts are warranted for five years; (b) gas cylinders, mechanisms and other moving parts are warranted for two years; and (c) upholstery materials and foam are warranted for two years.

Warranty is based on an eight hour, single shift work day for users weighing up to 250 pounds.

NOTE: Select light duty stacking chairs; OTG11693, OTG11694, OTG11696, and OTG11697, are warranted for users weighing up to 200 pounds.

Offices To Go Wood Veneer & Superior Laminate Desking

Wood Veneer Desking - Ventnor and Margate

- Hand selected veneers accented with solid wood fluted edges (Ventnor) or solid wood radius edges (Margate)
- Finished in a rich satin gloss Cordovan or Toffee (Ventnor only) finish
- Worksurfaces feature a nine step finishing process with a Polyester top coat finish
- Drawer interiors are constructed of a multi-ply wood veneer
- Metal brackets are included for additional strength and rigidity.
